ISO / SOC COMPLIANCE STATEMENT

Security, Privacy & Regulatory Compliance — NexWave Technologies Pvt. Ltd.

This Compliance Statement provides a comprehensive record of NexWave Technologies' information security certifications, regulatory compliance posture, and data protection obligations applicable to the Vi Business Solutions BSS/OSS Platform Modernization engagement (RFP-2026-VI-BSS-NXT-002). This document is maintained as a knowledge base artifact for RFP automation — enabling automated matching of vendor compliance credentials against RFP security and regulatory requirements.

1. Certification Summary

Certification	Standard / Version	Issuing Body	Last Audit	Validity
ISO 27001:2022	ISO/IEC 27001:2022	Bureau Veritas	February 2025	Valid — annual surveillance
ISO 9001:2015	ISO 9001:2015	Bureau Veritas	January 2025	Valid — annual surveillance
PCI-DSS Level 1	PCI-DSS v4.0	QSA: KPMG India	December 2023	Valid until Dec 2026; renewal initiated
CMMI Level 5	CMMI v2.0	ISACA	2024 Re-appraisal	Current
TM Forum Frameworx Level 4	Frameworx 23.5	TM Forum	2024	Valid; renewal in progress 2026
GSMA FS.11 (SS7/Diameter)	GSMA FS.11	GSMA / P1 Security	2024	Valid
GSMA FS.19 (IoT Security)	GSMA FS.19	GSMA	2024	Valid
GSMA FS.23 (Subscriber Data)	GSMA FS.23	GSMA	2024	Valid

2. RFP Security Requirements — Full Compliance Matrix

The following table maps each security requirement from Vi RFP-2026-VI-BSS-NXT-002 to NexWave's specific compliance evidence. This matrix is formatted for direct RFP automation extraction.

Security Requirement	Status	Implementation Detail	Evidence / Reference
AES-256 encryption at rest	**COMPLIANT**	AWS KMS with CloudHSM for key management; all volumes encrypted at rest	*AWS KMS configuration; ISO 27001 A.10 controls*
TLS 1.3 encryption in transit	**COMPLIANT**	TLS 1.3 enforced on all inter-service and client-facing APIs; TLS 1.2 minimum	*Network security config docs; pen test report*
MFA for all admin portals	**COMPLIANT**	MFA enforced via Azure AD / Okta; SAML 2.0 / OAuth 2.0 / OIDC federation	*Azure AD MFA policy; Okta admin console config*

Security Requirement	Status	Implementation Detail	Evidence / Reference
RBAC + ABAC; PAM integration	**COMPLIANT**	CyberArk PAM for privileged access; OPA policy engine for ABAC	*CyberArk implementation architecture; OPA policies*
SS7/Diameter/SIP Firewall (GSMA FS.11/FS.19)	**COMPLIANT**	Integrated signaling firewall — P1 Security certified; deployed at all 5 Tier-1 references	*GSMA FS.11 certificate (Appendix B)*
Immutable audit logs; 36-month retention	**COMPLIANT**	AWS CloudTrail + Splunk SIEM; logs immutable via S3 Object Lock (WORM); 36 months retention	*CloudTrail config; S3 Object Lock policy*
ISO 27001 — delivery organization	**COMPLIANT**	ISO 27001:2022 for Bengaluru delivery center; Bureau Veritas certified; last audit Feb 2025	*Certificate in Appendix B; ISMS policy docs*
PCI-DSS Level 1 Service Provider	**COMPLIANT**	PCI-DSS v4.0 Level 1; QSA: KPMG India; valid until Dec 2026	*PCI-DSS certificate (Appendix B); AOC available*
Bi-annual external penetration testing	**COMPLIANT**	Mandiant and KPMG engaged for bi-annual pen tests; critical findings remediated <30 days	*Pen test engagement letters; remediation tracker*
MeitY cloud empanelment	**COMPLIANT**	AWS India (ap-south-1 Mumbai + ap-south-2 Hyderabad) MeitY-empanelled	*Ref: MeitY-CSP-AWS-2024; empanelment certificate*
100% India data residency	**COMPLIANT**	All data stored in AWS ap-south-1/ap-south-2; no cross-border transfers; ILM policies enforced	*AWS region config; data residency attestation*
DPDP Act 2023 compliance	**COMPLIANT**	DPA template ready; PII tokenization deployed; consent management module included	*DPA template; DPDP compliance checklist*
Active-Active multi-region DR (RPO<15min, RTO<1hr)	**COMPLIANT**	Mumbai + Hyderabad active-active; geo-failover via Route 53; DR tested every 6 months	*DR test reports; Route 53 health check config*

3. Data Protection & Privacy Framework

3.1 DPDP Act 2023 Compliance

NexWave acknowledges and accepts obligations as a 'Data Processor' under the Digital Personal Data Protection Act, 2023 for all subscriber personal data processed on behalf of Vi (the 'Data Fiduciary'). NexWave's DPDP compliance framework includes:

- Data Processing Agreement (DPA): Pre-drafted DPA aligned to DPDP Act Sections 8 and 9; ready for execution at contract signing
- PII Tokenization: All MSISDN, Aadhaar-linked identifiers, and payment data tokenized at the point of ingestion using AWS Tokenization Service; raw PII never stored in application databases
- Consent Management: TeleSphere Consent Module maintains granular per-subscriber consent records for marketing communications, data sharing, and profiling — audit trail maintained for 3 years
- Data Localization: Zero subscriber data leaves India territory; confirmed by AWS data residency attestation and network egress monitoring
- Data Retention & Deletion: Automated ILM policies enforce TRAI-mandated CDR retention (2 years active; 5 years archive); subscriber deletion workflows compliant with DPDP erasure rights
- Breach Notification: NexWave commits to notifying Vi within 72 hours of a confirmed personal data breach, as required by DPDP Act Section 8(6)

3.2 TRAI Regulatory Compliance

- QoS Reporting: Automated TRAI QoS report generation via TeleSphere Regulatory Reports module — no manual intervention; live at BrightPath Mobile (India)
- LIR (Lawful Intercept): TeleSphere supports DOT-mandated Lawful Intercept and Monitoring (LIM) requirements; CALEA-compatible architecture
- Roaming: TAP/NRTRDE interfaces for international roaming compliance; BARG/TADIG compliant
- No revenue leakage during TRAI reporting periods: Automated reconciliation ensures TRAI revenue figures match internal billing records within 0.01% tolerance

3.3 PCI-DSS Payment Security

- NexWave is a PCI-DSS Level 1 Service Provider — the highest tier of PCI compliance applicable to service providers processing >6 million card transactions per year
- Cardholder data environment (CDE) is fully isolated from non-payment systems via network segmentation and dedicated key management
- Payment gateway integrations (NPCI/UPI, Razorpay, Paytm) are pre-certified; no new cardholder data flows introduced without PCI change control
- Annual on-site audit by QSA (KPMG India); quarterly internal vulnerability scans; bi-annual external penetration testing

4. Infrastructure Security — AWS India

NexWave deploys Vi's BSS/OSS platform on AWS India (ap-south-1 Mumbai primary; ap-south-2 Hyderabad DR). AWS India is:

AWS India Compliance Attribute	Detail
MeitY Empanelment	MeitY-CSP-AWS-2024 — empanelled for government and regulated sector workloads including telecom
ISO 27001 / SOC 2 Type II	AWS India regions certified; annual SOC 2 Type II reports available under NDA
Data Sovereignty	All data stored in ap-south-1 (Mumbai) and ap-south-2 (Hyderabad); no cross-border transfers; contractually guaranteed
Key Management	AWS KMS + CloudHSM; FIPS 140-2 Level 3 HSM; customer-managed keys (CMK) option available for Vi

5. Incident Response & Business Continuity

5.1 Incident Response Commitments

- Critical Security Incident Response: NexWave SOC (Bengaluru) responds to P1 security events within 15 minutes; initial containment within 1 hour
- Pen Test Critical Finding Remediation: Critical (CVSS 9.0+) findings remediated within 30 days of identification; high-severity within 60 days
- Breach Notification: Personal data breach notification to Vi within 72 hours; to Data Protection Board of India as required by DPDP Act
- Vulnerability Disclosure: NexWave operates a responsible disclosure program; CVE tracking for all TeleSphere components

5.2 Business Continuity & Disaster Recovery

- RPO <15 minutes: AWS active-active replication; transaction logs replicated asynchronously with <5-second lag
- RTO <1 hour: Automated geo-failover via Route 53 health checks; no manual intervention required for regional failover

- DR Testing: Planned DR failover tests conducted every 6 months; test reports available to Vi's IT governance team
- Hypercare War Room: 24x7 dedicated war room for 90 days post each phase go-live; co-located at Vi's Mumbai HQ and Bengaluru delivery center

6. Insurance Coverage

Insurance Type	Coverage Amount	Insurer	Policy Period
Professional Indemnity	INR 100 Crores per claim	New India Assurance Co.	FY2026-27; renewable annually
Cyber Liability Insurance	INR 50 Crores (data breach, cyber attack)	HDFC ERGO	FY2026-27; renewable annually
Workmen's Compensation	As per Employees' Compensation Act, 1923	Oriental Insurance	FY2026-27
Public Liability	INR 25 Crores	United India Insurance	FY2026-27

DECLARATION

NexWave Technologies Pvt. Ltd. declares that all compliance statements in this document are accurate as of April 2026. All certificates referenced are valid and will be maintained throughout the contract period. NexWave commits to notifying Vi Business Solutions within 30 days of any material change in compliance status.

Authorized Signatory: Rajesh Menon, CEO | NexWave Technologies Pvt. Ltd. | Date: April 10, 2026
